Manhattan Active® Platform Integrations with SMC³ products

Manhattan Associates

Manhattan Associates boasts more than 1,200 customers around the globe. In the past decade, the company has spent more than $400 million in research and development, striving to create cutting-edge supply-chain and retail tools that solve transportation issues and drive optimization. Its array of solutions include supply chain products ranging from warehouse and transportation management systems to appointment scheduling programs. These tools, along with omni-channel and inventory products, are utilized by companies like Ralph Lauren, Starbucks, McKesson, Puma and Hugo Boss. Manhattan develops market-leading solutions from conception to completion and implementation that help companies expand their industry presence while increasing their bottom lines.

About SMC³

SMC³ is the hub for less-than-truckload technology, data and education. SMC³'s hosted technology solutions support the entire supply chain with industry-leading speed, reliability and performance to help optimize LTL freight transportation. As the single integration point for all carrier rate, transit and service information, SMC³ solutions travel beyond simple connectivity and empower shippers, 3PLs and carriers to collaborate and optimize decision making throughout the entire LTL lifecycle — from rating through the invoicing process. SMC³ has a history of industry excellence and business stability, and an unrivaled reputation as a trusted guardian of data security.

RateWare® XL

The implementation of RateWare XL enables customers to fully realize the advantage of a durable rating engine with a library of more than 5,000 data modules. This robust rating simplifies LTL pricing and eliminates the costly tasks of sourcing, programming and maintaining data from multiple carriers. Use RateWare XL to:

- Manage LTL shipment costing and pricing, including carrier specific discounts, minimum charges, deficit rating and FAK charges, in a streamlined and efficient process

- Quickly and easily convert and validate data through a simplified process for updating motor carrier tariff information and expiration dates

- Support rating requirements with various lookup and discounting activities

- Incorporate CzarLite® and CzarLite® XL base rates

CarrierConnect® XL

Accurate transit times are the backbone of any efficient supply chain. To make sure LTL freight is always in the right place at the right time, customers require the most accurate and timely information on the front end. CarrierConnect XL continually updates transit times from more than 200 leading national, super-regional and regional carriers across

North America, giving customers the confidence to make the best choice for LTL shipments. With CarrierConnect XL, customers can eliminate transit-time and delivery-date ambiguity with calendar date or number-of-days modeling, as well as carrier specific holiday calendars. Customers around the country use CarrierConnect XL to easily make the most accurate routing decisions using dynamically updated carrier information that reflects real-world operations.

SMC³ CzarLite

No matter where a customer ships his goods in the United States, Canada or Mexico, SMC³ CzarLite base rates provide a flexible decision-support tool to assure total pricing visibility. These carrier-neutral benchmarks allow customers to achieve optimal shipping agreements. Customers can also use CzarLite to:

- Simplify business processes like negotiations, contracts and profitability strategies

- Quickly evaluate the impact of carrier rate adjustments and conduct "apples-to-apples" base rate comparisons

- Assure your shipments are rated using timely, accurate, carrier-independent base rates, so the effects of line items such as discounts and FAK classifications are apparent

- Create your own flexible, borderless international pricing system with stable base rates for freight movements between the U.S., Canada and Mexico. CzarLite is the most widely used neutral LTL base rate for pricing agreements in North America, serving as an LTL pricing benchmark for thousands of successful shipper, carrier and logistics service provider pricing agreements. This activity represents billions of dollars in annual managed transportation spend.
