

# AI-READY: LTL Data to Power AI Agents

ONE CONNECTION. FASTER ACTION. BETTER DECISIONS.

AI agents are only as effective as the data behind them. SMC<sup>3</sup> is the authoritative LTL industry leader for accurate, real-time shipment transportation lifecycle data that AI agents can rely on to automate and act—from pricing to delivery.

## What Can AI Agents Do with SMC<sup>3</sup> Data?

### Quote & Select Carriers

Automate emails, calls and processes for LTL rating

### Dispatch & Tender

Schedule pickups and identify and resolve missed pickups

### Enhance Visibility

Enable proactive tracking and shipment status notification

### Handle Exceptions

Monitor ETAs to identify and resolve at-risk shipments faster

### Document & Claim Management

Leverage shipment documents to streamline claims processes

### Invoice & Audit

Automate invoice reconciliation and payment automation

## One Trusted Source of LTL Shipment Data Empowering AI Agents

Normalized LTL data across carriers

**Fewer hallucinations, better outcomes**

Complete lifecycle, rate to invoice

**Agent orchestration, versus observation**

Exception-rich historical data

**Learn what actually goes wrong**

Real-time data and reference data

**Action, not hesitation**

# The LTL Data your AI Agents Need to do Real Work

Your System or AI Agent

SMC<sup>3</sup> Data

24/7 Action in your LTL  
Transportation Workflows

Technology Providers | Embedded Technology Platforms | Implementers & Integrators

Add LTL intelligence to your platform to extend actions where users work.

Tap into a single SMC<sup>3</sup> connection across customer environments and multiply access to robust, real-time carrier and shipment data across the shipment lifecycle.

Power agents with accurate, reliable data to improve customer experience. Save time, resources and drive transportation decisions end to end.
